**Versatile wheel-free carriers  
to get you on the road easier  
and ready for adventure faster.**

## the easiest way to haul -- today's most versatile alternative!

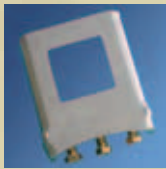

Looking to have some fun, but have no way to haul your motorcycle, sport bike, two scooters, or even your ATV? Well, the VersaHaul from BNK, Inc. is the ultimate solution. VersaHaul offers a single motorcycle carrier, a sport bike carrier, a double motorcycle carrier, and an ATV carrier. Simply mount the VersaHaul carrier of your choice into your vehicle's two-inch receiver, roll your bike up the carrier's ramp, strap it down, and you're ready for adventure.

VersaHaul is versa-tile!  
You can disassemble the VersaHaul for easy storage, and interchange its parts between models. VersaHaul offers optional taillights, ramps and hitch risers for all of our models.

The VersaHaul is made of sturdy, 14-gauge steel. Our heavy duty anti-tilt lock bracket is included with every carrier and is designed to stabilize the carrier and eliminate movement. A high quality powder paint coating ensures protection against the elements. Manufactured with high precision techniques, VersaHaul is made with quality unparalleled.

VersaHaul...  
Only the best for your motorcycle!

**Anti-Tilt Lock Bracket**  
stabilizes the carrier and eliminates movement. Included with each carrier.

**Retractable Tiedowns**  
for increased safety

**Adjustable Wheel Stops**  
allows smaller bikes to be centered on the carrier

Able to tow up to 3000 lbs. behind the single motorcycle carrier. Strict weight limits apply, consult ([www.VersaHaul.com](http://www.VersaHaul.com)) website for more specifics.

**Hitch Riser Class III**  
raises the hitch 4 inches (400 lbs. limit) -Optional

**VersaHaul Taillight Kit**  
stop, turn and tail, flat 4 connector -Optional

- 14-Gauge steel rails make VersaHaul the most durable carrier (400 lbs. limit).
- Tough powder coat finish.
- Fits Class III and IV hitch.
- Anti-tilt locking device included on all carrier models.
- Adjustable rail width allows carrier to accommodate varied axle widths.
- Available with ramps and no-drill, easy to install taillights.
- Optional ramps store on carrier frame.
